7. Examiner's Amendment/Comment
8. Examiner's Statement of Reasons for Allowance
9. Other _____.

The following is an examiner's statement of reasons for allowance: Applicant's new arguments are convincing. Furthermore, the prior art of record does not fairly suggest all the limitations of the newly amended claims, particularly the equal length of the gate extension in relation to the "virtual line". Jassowski's figure 2 shows "end caps" however, there is no statement that the figures are exactly drawn to scale and no exact indication that the one gate electrode "G1" extending longer than an end cap is drawn to scale or that there is any particular significance to its drawn length, particularly in view of G' or G4 which are not similarly extended. Furthermore, the prior art taken together does not suggest the claimed gate extension lengths in relation to the "virtual line". Shou makes no mention of a "virtual line" in view of gate extension and the art taken together would not fairly suggest the claimed extension parameters in a structure with "non-rounded" active areas or "straight-edge" delineated active areas as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
